PROFESSIONAL SUMMARY

Software Engineer with experience building scalable web applications and backend systems using React.js, Next.js, Node.js, and modern databases. Strong in designing modular architectures, optimizing performance, and handling real-time data workflows. Experienced in API design, system integration, and delivering reliable, production-ready features. Comfortable working across the stack to build efficient, maintainable systems in fast-paced environments.

EXPERIENCE

Software Engineer (Remote) Feb 2026 – Present

Xelron AI (Full-Time)

- Design and implement end-to-end AI evaluation systems, including backend services, execution pipelines, and data flow orchestration
- Build and manage Docker-based infrastructure to enable scalable, reproducible, and isolated system execution
- Develop automated testing frameworks in Python, improving validation accuracy, reducing manual effort, and increasing system reliability
- Optimize pipeline performance and integrate internal APIs, ensuring efficient execution, seamless system communication, and production-grade reliability

Software Developer (Remote) Dec 2025 – Feb 2026

CodeFeast (Intern)

- Led frontend development for client-facing and dashboard modules using React.js and Next.js, building reusable and scalable component architectures
- Developed interactive dashboards with real-time data handling, implementing structured state management to ensure stable performance under continuous user interaction
- Optimized rendering performance through memoization, component splitting, and efficient state updates, improving UI responsiveness across core workflows
- Integrated REST APIs with proper error handling, loading states, and optimistic updates to enhance user experience
- Collaborated with backend and design teams to ensure API alignment, UI consistency, and maintainable frontend architecture across projects

Frontend Developer (Remote) Sep 2025 – Nov 2025

QriosX (Intern)

- Developed the marketing landing page using Next.js, leveraging SSR and optimized routing for improved SEO and faster initial load performance.
- Built and maintained the core product dashboard using React.js, implementing reusable components and modular architecture for scalability.
- Converted Figma designs into pixel-perfect, fully responsive interfaces using Tailwind CSS with strict attention to spacing, typography, and layout consistency.
- Integrated REST APIs with proper loading states, error handling, and efficient state management to ensure smooth user interaction across the application.

KEY PROJECTS

- **QriosX - AI-Powered Coaching:** Built an interactive coaching platform with AI-driven journaling, reflections, and grit-based challenges; designed user journeys and dashboards to enhance personal growth routines.
- **LinkSaver - Resource Manager:** Developed a high-performance resource management tool with nested folders, drag-drop organization, treemap visualization, notes, and Chrome extension support. Powered by React and Go.
- **Cognize - Lead Board:** Created a lightweight lead-management tool with auto-summaries, and lifecycle tagging to streamline sales processes.
- **CustomCV - Personalized Cover Letter Generator:** An AI-powered web application that generates personalized, job-specific cover letters based on user profiles and job descriptions.

CORE SKILLS & EXPERTISE

- **Software Development:** React.js, Next.js, JavaScript (ES6+), TypeScript, Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, MySQL, Prisma, Zustand, Redux, Tailwind CSS, SCSS, Optimistic UI Rendering, Data Structures & Algorithms
- **Design-to-Code Execution:** Figma (Design Handoff), Responsive Design, Component-Based Architecture, UI/UX Implementation, Performance Optimization, Pixel-Perfect Layouts
- **Dev Tools & Deployment:** Git, GitHub, Docker, Vercel, Netlify, Postman, AWS (EC2, EBS - project usage)
- **Additional Skills:** Microservices Architecture (REST-based), API Integration, Agile Development, Clean Code Practices, Performance Optimization

EDUCATION

Indian Institute of Information Technology (IIIT), Sonapat Nov 2022 - Present

Bachelor of Technology in Computer Science 7.1 CGPA

OTHERS

- **Tech Leadership & Execution:** Coordinated and led multiple technical clubs and events, managing cross-functional teams to drive higher participation and successful project execution.
- **Contractual & Product Experience:** Engaged as a Contractual SDE at Xelron, delivering task-based engineering contributions in a performance-driven environment.
